

AMAN RAWAT

Frontend Developer | B.Tech Information Technology

Ahmedabad, Gujarat, India | 6351630919 | amanrawat952004@gmail.com | LinkedIn.com/in/aman-rawat-1779ab3b8 | github.com/RawatAman24

PROFESSIONAL SUMMARY

Frontend Developer and B.Tech Information Technology student (pursuing) with hands-on experience designing and building **responsive, cross-browser** web interfaces using **HTML5, CSS3, and JavaScript (ES6+)**. Proficient in **DOM manipulation, component-based UI architecture, RESTful API integration**, and translating UI/UX designs into pixel-accurate, accessible layouts. Full-stack exposure through the **MERN stack (Node.js, Express.js, MongoDB)**, enabling effective collaboration with backend teams on data flow and API design. Experienced with **Git/GitHub version control** and **agile, iterative development**. Built and shipped an **AI Medical Chatbot prototype**, co-authored an accompanying **research paper**, and named contributor on a filed **patent application** for its conversational-interface methodology — reflecting strong UI craftsmanship, technical documentation ability, and end-to-end product thinking.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, React js, Responsive Web Design, DOM Manipulation, Component-Based UI, Cross-Browser Compatibility, UI/UX Implementation, Accessible Layouts

Backend & API: Node.js, RESTful API Design & Integration, MongoDB, MERN Stack Fundamentals

Programming Languages: C Programming, C++ programming

Tools & Version Control: Git, GitHub, VS Code, Debugging

Practices & Methodologies: Problem Solving, UI/UX Collaboration, Technical Documentation, Research Writing

PROJECTS

AI Medical Chatbot — Prototype, Research Paper & Patent Application | Personal Research Project

- Designed and developed an interactive **AI Medical Chatbot prototype** end-to-end using **HTML5, CSS3, and JavaScript**, applying frontend logic and structured, **component-based UI** for seamless conversational user interaction.
- Engineered **responsive UI components** and dynamic **DOM manipulation** to deliver a **cross-browser-compatible** conversational experience across devices.
- Co-authored a **research paper** documenting the chatbot's system architecture, interaction design, and evaluation methodology, strengthening technical writing and analytical skills.
- Named contributor on a filed **patent application** covering the chatbot's conversational-interface methodology and novel UI/interaction design, reflecting a track record of innovation in frontend/UX design.

EDUCATION

Bachelor of Technology (B.Tech), Information Technology — Pursuing

Silver Oak University, Ahmedabad, Gujarat

CERTIFICATIONS

- **JavaScript Training Certificate** — Core scripting, functions, events
- **CSS Training Certificate** — Advanced styling, Flexbox, Grid, and responsive design
- **IBM Training Certificate** — Web development fundamentals and application basics

CORE STRENGTHS

Quick Learner • Teamwork & Collaboration • Problem Solving • Positive Attitude

LANGUAGES

Hindi • English
